BARKO →INSIGHT

Work Hard. Work Smart. Work Better.

BARKO INSIGHT™ puts data at the fingertips of owners in Real Time, including information regarding how the machine is performing and automatic alerts about the status of on-the-job operating conditions.

This is beyond regularly scheduled maintenance. BARKO Insight is Next Level operational performance optimization.

- Tap into your BARKO equipment and actively manage its performance.
- Prioritize preventative maintenance according to how the machine is working, rather than simply responding to a calendarized schedule.
- Optimize fuel consumption.
- Increase productivity.
- Simple, intuitive on-line dashboard.

BARKO equipment is known for productivity, toughness and long-life. Hard work is what the BARKO brand is all about. **Now, you can add Smart Work to that equation.**

The Devil is in the Details...So is Success

The truth about any powerful tool is that its effectiveness is only as good as the individual using it. The more you know about your BARKO equipment, the better you can make it perform.

BUILT FOR THE LONG HAUL

Since 1963, we've built over 25,000 of the most durable and reliable machines for the forestry, material handling, and vegetation management industries. Now, we're tapping technology to help BARKO owners/operators save money and optimize productivity by reducing downtime, conserving fuel and prioritizing routine maintenance, not to mention identifying novel technical issues that are an integral part of rugged field work.

Your BARKO Insight will optimize productivity, extend machine life, and make managing your equipment simple, fast and accurate. [Contact your BARKO dealer to learn more about BARKO Insight.](#)
